INDEX TO VOLUME LXI

Anesthesia, nitrous oxide-ether, A case of extensive injury to the cerebral cortex following ... 246
Arteriosclerosis and arteriolonecrosis, Production of hyaline, by means of proteolytic enzymes ... 63
Arthritis, chronic rheumatoid, Multiple agglutinins in the serum of patients with ... 358
Astwood, E. B., Dean Lewis, and Ferdinand C. Lee: Some observations on intermedin ... 198

Barker, W. Halsey, and John Eager Howard: Paroxysmal hypertension and other clinical manifestations associated with benign chromaffin cell tumors (Phaeochromocytomata) ... 471
Blackman, S. S., Jr.: The lesions of lead encephalitis in children ... 1
Book Reviews ... 71, 145, 218, 291, 366, 429
Brailey, Miriam: Observations on the development of intrathoracic calcification in tuberculin-positive infants ... 258
Bridge, Edward M.: The correlation of the respiratory quotient to glycogen reserves ... 349
Brödel, Max, and Thomas S. Cullen: Lesions of the rectus abdominis muscle simulating an acute intra-abdominal condition ... 295
Brown, Thomas McPherson: Protective action of sulfanilamide and antimeningococcus serum on meningococcus infection of mice ... 272

Calcification, intrathoracic, Observations on the development of, in tuberculin-positive infants ... 258
Carcinomatosis, cutaneous, Primary carcinoma of the trachea with ... 411
Cardiac malformation, congenital, A case of ... 421
Cataract, hereditary, A pedigree of, illustrating sex-limited type ... 125
Cullen, Thomas S., and Max Brödel: Lesions of the rectus abdominis muscle simulating an acute intra-abdominal condition. Max Brödel: I. Anatomy of the rectus abdominis muscle ... 295
Cullen, Thomas S.: II. Hemorrhage into or beneath the rectus muscles simulating an acute abdominal condition ... 317

Duff, G. Lyman, and Arnold R. Rich: The production of hyaline arteriosclerosis and arteriolonecrosis by means of proteolytic enzymes ... 63

Encephalitis and myositis, A peculiar case of ... 280
Extracellular fluid. Extracellular fluid and its vicissitudes. Renal defense of extracellular fluid: Control of acid-base excretion and the factors of water expenditure ... 151, 174

Fallin, H. Kirk, and Francis F. Schwentker: A simple method for the analysis of helium ... 210

Ford, Frank R., Frank B. Walsh and J. A. Jarvis: A case of extensive injury to the cerebral cortex following nitrous oxide-ether anesthesia 246

Gamble, James L.: Extracellular fluid and its vicissitudes. Extracellular fluid. Renal defense of extracellular fluid: Control of acid-base excretion and the factors of water expenditure 151, 174
Gay, Leslie N., and Walter L. Winkenwerder: Perennial allergic rhinitis, An analysis of 198 cases 90
Glycogen reserves, Correlation of respiratory quotient to 249

Hamburger, Louis, Jr.: Congenital cardiac malformation presenting complete interruption of the isthmus aortae with transposition of the great arteries 421
Harvey, A. M., and M. R. Whitehill: Quinine as an adjuvant to prostigmin in the diagnosis of myasthenia gravis. A preliminary report 216
Helium, A simple method for the analysis of 210
Howard, John Eager, and W. Halsey Barker: Paroxysmal hypertension and other clinical manifestations associated with benign chromaffin cell tumors (Phaeochromocytomata) 471
Hypertension, Paroxysmal, and other clinical manifestations associated with benign chromaffin cell tumors (Phaeochromocytomata) 471

Immunity, active and passive, Problems in 221
Intermedin, Some observations on 198
Ipsen, John, Thorwald Madsen and Claus Jensen: Problems in active and passive immunity 221
Iron, non-haemoglobin, The occurrence of, in whole blood 75

Jarvis, J. A., Frank R. Ford and Frank B. Walsh: A case of extensive injury to the cerebral cortex following nitrous oxide-ether anesthesia 246
Jensen, Claus, Thorwald Madsen and Johs Ipsen: Problems in active and passive immunity 221
Josephs, Hugh W., and Perlina Winocur: The occurrence of non-haemoglobin iron in whole blood 75

Keeney, Edmund L.: Primary carcinoma of the trachea with cutaneous carcinomatosis 411

Lead encephalitis, The lesions of, in children 1
Lee, Ferdinand C., Dean Lewis, and E. B. Astwood: Some observations on intermedin 198
Lewis, Dean, Ferdinand C. Lee, and E. B. Astwood: Some observations on intermedin 198
Lilienthal, Joseph L., Jr., and Frank J. Otenasek: Decorticate polypneic panting in the cat 101

Madsen, Thorwald, Claus Jensen, and Johs Ipsen: Problems in active and passive immunity 221

Marshall, E. K., Jr., and E. M. Walzl: On the cyanosis from sulfanilamide..... 140
Myasthenia gravis, Quinine as an adjuvant to prostigmin in the diagnosis of myasthenia gravis. A preliminary report..... 216

Oppenheimer, Ella Hutzler: A peculiar case of encephalitis and myositis..... 280
Otenasek, Frank, Jr., and Joseph L. Lilienthal, Jr.: Decorticate polpyneic panting in the cat..... 101

Polypneic panting in the cat, decorticate..... 101

Rectus abdominis muscle, Anatomy of..... 295
Rectus muscles, Hemorrhage into or beneath the, simulating an acute abdominal condition..... 317
Respiratory quotient, The correlation of, to glycogen reserves..... 349
Rhinitis, allergic, Perennial: Analysis of 198 cases..... 90
Rich, Arnold R., and G. Lyman Duff: The production of hyaline arteriosclerosis and arteriolonecrosis by means of proteolytic enzymes..... 63

Schwentker, Francis F., and Sidney Gelman: Sulfanilamide rash..... 136
Schwentker, Francis F., and H. Kirk Fallin: A simple method for the analysis of helium..... 210
Sulfanilamide rash..... 136
Sulfanilamide, On the cyanosis from..... 140
Sulfanilamide and antimeningococcus serum, Protective action of, on meningococcus infection of mice..... 272

Wainwright, Charles W. L.: The presence of multiple agglutinins in the serum of patients with chronic rheumatoid arthritis..... 358
Walsh, Frank B., and Myron E. Wegman: A pedigree of hereditary cataract illustrating sex-limited type..... 125
Walsh, Frank B., Frank R. Ford and J. A. Jarvis: A case of extensive injury to the cerebral cortex following nitrous oxide-ether anesthesia..... 246
Walzl, E. M., and E. K. Marshall, Jr.: On the cyanosis from sulfanilamide..... 140
Wegman, Myron E., and Frank B. Walsh: A pedigree of hereditary cataract, illustrating sex-limited type..... 125
Whitehill, M. R., and A. M. Harvey: Quinine as an adjuvant to prostigmin in the diagnosis of myasthenia gravis. A preliminary report..... 216
Winkenwerder, Walter L., and Leslie N. Gay: Perennial allergic rhinitis, An analysis of 198 cases..... 90
Winocur, Perlina, and Hugh W. Josephs: The occurrence of non-haemoglobin iron in whole blood..... 75
